NEWS LETTER FROM STATE DEPARTMENTS

COLUMBUS—Industrial accidents in Ohio during 1937 caused an economic loss in wages alone of at least \$20,000,000, it was announced by Superintendent Thomas P. Kearns of Ohio. "Assuming as correct the engineering estimate that the indirect, or hidden cost of accidents, is four times the direct cost," Mr. Kearns added, "it may be readily seen that Ohio's industrial accident bill for 1937 reached the amazing total of approximately \$100,000,000. When it is considered that at least ninety per cent of these accidents were preventable by the application of proper safety methods and safe practices, there is no need for argument that prevention work in Ohio industry is still a crying need in spite of the steady growth of safety sentiment on the part of both employers and employees." The 1937 record for the state as a whole showed 239,103 claims filed, which included 1090 fatalities, four permanent total disabilities and 1925 permanent partial disabilities.

In a roster of the membership of the 1938 General Assembly, which will function during 1939 and 1940, it was indicated that legal talent will be predominant in comparison with the other professions. The roster, issued jointly by Senate Clerk Dwight L. Matchette and House Clerk Fred P. Elissas, listed fifty-one attorneys in both branches of the incoming legislature. Representative W. R. McChesney of Cedarville, Greene county, the head of Cedarville college, was the only college president included in the membership. There are several clergymen, dentists, farmers, physicians, newspapermen, druggists, a former-banker and the operator of farm stone quarry as well as other professions and occupations listed in the roster.

Commissioner Lawrence Wooddell of the state division of conservation estimated that Ohio's vast army of more than 600,000 hunters will spend nearly \$15,000,000 this fall and winter conjunction with their favorite sport. The estimate, Commissioner Wooddell wanted it made clear, was for the current season and does not include a permanent investment of some \$15,000,000 in guns and other equipment. It was thought that approximately \$800,000 will be spent for licenses, \$1,800,000 for shells, \$9,000,000 on trips, \$3,000,000 on additional equipment such as boots, hunting coats, shell vests and related articles.

Fallen arches from standing for two hours to witness a football game and stiff necks from craning to see over or around someone are, or will be, things of the past in seventy-six Ohio communities as the result of WPA stadium projects, according to Dr. Carl Watson, state WPA administrator. He said that the seventy-six safe, modern stadia and playing fields have been constructed, or are in the process of construction, as WPA projects. "The frequent collapse rickety wooden stadia or the lack of any stadium whatever," Dr. Watson asserted, "motivated communities or school boards to sponsor these stadium projects at an average cost, complete, of \$44,955."

The spirit of Yuletide came officially to the state with the erection, under the direction of Acting Supervisor Charles Hutchings of the division of State House and grounds of decorations in the form of colored lights on the dome and front of the Capitol. Mr. Hutchings said that a twenty-five foot illuminated Christmas tree would be installed in the rotunda of the Capitol within a few days to supplement the exterior decorative scheme.

Other boys purchasing registered gilts for projects privately are Harold Corry—2 gilts, Earl Chaplin, James Ramsey, Ronald Anderson and Joe Tucker, one gilt each. D. L. ELLIOTT MEETS DEATH BY TRAIN CRASH

D. L. Elliott, Jamestown, met instant death Wednesday morning at 8:57 when his log truck was hit by a Pennsylvania passenger train at a grade crossing near Selma.

So far as known there were no eye witnesses to the accident and the truck wreckage with posts was carried a mile down the track towards Cedarville before the train was brought to a stop.

For a time it could not be determined whether the corner of Clark or Greene county could hold the inquest but later it was decided that Elliott's death took place in Clark county. The body was removed to the Sprague Funeral Home in South Charleston. The engine whistle was wide open so that Elliott had warning if he heard the blast.

The crash put the air brakes and steam chest on the locomotive out of commission and another was secured from the Xenia yards.

Born in Adams County, O., on May 12, 1879, Elliott had lived in Springfield, the greater part of his life. He moved to Jamestown a little more than a year ago. He was a member of the Seventh Day Adventist Church.

Survivors are his widow, Grace, five daughters, Mrs. Naomi Cates, Mrs. Ruth Smith, and the Misses LaVonne, Maxine and Wilma Lee Elliott, all of Springfield, two sons, Marion of Springfield, and Leroy of Jamestown, four brothers, Harold T. and O. G. Elliott both of Monroe, La., John of Lewis, Kan., and Noah J. of Springfield, two sisters, Mrs. Maudie Reed and Mrs. Florence Fulton both of Sinking Springs, O., and two grandchildren.

It was the same train in this accident that figured in the boiler explosion several months ago when both engineer and fireman were killed. The latter a mile and half west of Selma and the former in the village.

HITLER AND JEHOVAH

"Hitler declares war on Jehovah. He orders all churches bearing the name of the God of the Old Testament burned. Hitler will have nothing to do with the ancient prophets of Israel. Presumably the German reichsfuehrer places the ban on Moses and the Ten Commandments."

"Has Hitler had much use for the Ten Commandments these few years? He has kept the faith of the Mosaic code, but to small degree. He has killed and he has borne false witness. Ninety-two per cent of the British attest that they can put no confidence in what Hitler says. Ninety-three per cent of Americans think the same. A large part of the world outside Germany brands Hitler a liar."

"Hitler covets much that is not rightly his. He covets Austria and then Czechoslovakia. He had killed, borne false witness, and coveted with astonishing success. He finds that it pays to break the law of Moses."

The above is part of an editorial from the Dayton News and most any American citizen can subscribe to the sentiment expressed but in view of the attitude of the News to the New Deal we think it proper to draw a few conclusions. The News has subscribed to most of the Roosevelt Communistic program and all will recall that it was the same Roosevelt that joined with the British Chamberlain, in singing the praises of Hitler when they winked at the invasion of Austria and Czechoslovakia to avert what was said at the time to be "inevitable war."

It was the same Roosevelt that backed Hitler who the day following the signing of the treaty witnessed ignoring it and demanding more territory of a helpless small nation. Roosevelt has never at any time protested Hitler's action.

Yes, "Hitler declares war on Jehovah," but where does Roosevelt by his non-interference of CIO strikers stand when the property of American citizens is seized and also when American workmen who desire work have their lives threatened if they attempt to pass the picketing line? How does Roosevelt reconcile his position with Jehovah when the White House was thrown open for a drunken party of socialists?

The News might also ask where Roosevelt stands when under the powers of his office as chief executive he sits in stupid slumber and offers not a word of protest to stockyard strikers that refuse to feed and water dumb animals or even permit others to perform such a mercenary act?

The News in concluding the unquoted editorial "Can Hitler be sane? Is he a madman? Is he god or demon?" We can only answer the questions by asking where Roosevelt is while Japan denies American missionaries to carry on their work unmolested? Where was Roosevelt when Mexicans were burning Catholic Churches and murdering priests? What has Roosevelt, Ickes, Perkins or Hopkins said or done the past six years that would indicate any interest now or in the future on behalf of Jehovah in this country? It is for the News to answer.

COMPARE STRIKE SITUATION IN FRANCE WITH U. S.

Labor unions in France called a strike of five million men to show organized strength in defiance of orders of the government. The French president had thousands of soldiers on hand to protect those who returned to work and to protect property. When the time came for the strike less than a million men in that country obeyed orders of labor leaders. The strike was a completed failure and orderly government in that country took precedence over threats of labor leaders.

Compare the attitude of the president of France with what we have in the United States in the White House. Strikers in this country have Roosevelt's support whether such demonstrations are orderly or not. Comparison might also be made with the brand of state government in Michigan under Governor Murphy. Seizure of private property or even destruction of property, attack on the lives of non-strikers, made no impression on either Roosevelt or Murphy. Labor leaders, especially John L. Lewis and his CIO Communist supporters, operate without fear of law enforcement from either Roosevelt or Murphy.

What has happened in this country should shame those who follow the New Deal, when we read of how the French government broke the strike that was to paralyze the country. The recent election in this country can be considered nothing more than a referendum on the administration attitude towards Communistic labor leaders. It is our belief that by the 1940 elections the registered protest of the great middle class will wipe out Roosevelt, Ickes, Hopkins, Perkins, Cohen and Arnold, all a part of the Communistic setup masquerading as Democrats.

Ohio Republicans should keep one thing in mind, not all the places now occupied on the pay roll by Democrats will be filled. Republicans have an obligation to carry out platform pledges for a reduction in the cost of government. Not only will some places be abolished but the salaries of others should be reduced in keeping with the ability required to perform the necessary duties for good services to the public. There are thousands of sniping jobs that should be wiped out by the legislature over night. Gov.-elect John W. Bricker from the platform made it plain to Ohio electors what he stood for, so let Republican office seekers help him made good on his promise.

There will probably be no money soon for old-age pensions. New Dealers in Washington are still holding up money due Ohio old folks because Gov. Franklin would not kiss King Franklin's skirt and kneel at the throne. Washington is now trying to find a way to get around a hot spot created by the New Deal since Charles Sawyer was defeated. Had the latter won, money would have been sent to Ohio at once. Now we will wait and see what happens to John W. Bricker as governor.

A lot of WPA projects in union-controlled cities have been held up for weeks by WPA workers' being on a strike. It seems the New Deal let contracts for trucking to the lowest bidder, an almost unheard thing in New Dealism that tried to make costs mount higher and higher. The union truckers have defied the government and refuse to let WPA workers on the job. The unions under John L. Lewis are holding the line for the "prevailing scale" and little Frankie down in Warm Springs bathes in the southern sun unhampered of what is taking place in Ohio. Meantime his old sidekick John L. Lewis, issues the orders. It is regrettable that Martin L. Davey does not have control of the WPA. Martin L. and the President of France seem to have similar ideas of what constitutes good government.

Mr. Farley's postoffice department has been in for a lot of complaint in recent months, some of which was very productive for the Republicans in the last election. A good Democratic publisher in a western Ohio town stated there was so much opposition to the "horse and buggy" setup for delivery of mail from an adjacent town, not a single Democratic businessman or member of his family voted the donkey ticket this time. The net result was the county, recognized as Democratic since the Civil War went Republican. Now we see where the antique method of mail delivery just to give some Democrat a job driving a truck to haul the mail from some adjacent town after the government has paid the railroad to haul the mail through the town. The plan seemed to meet little objection until Democratic county seat towns were placed on the hick mail delivery plan. The next Congress, 1940, will be Republican, and then the mail service towns once knew will be restored.

The New York Times, America's first paper, until a few months ago an exponent of the New Deal, has crossed swords with Harry Hopkins, the Roosevelt official spender that has run up a deficit this year of only seventeen billions, if anyone outside of Roosevelt knows how much that is. Harry was quoted as saying, "We will spend and spend, tax and tax, elect and elect." This statement was made before the recent election but it did not work in spots. Hopkins denies he ever made such a statement yet reference was made to it by other papers before the

Times used the exact words. Arthur Krock, one of the foremost Washington correspondents, says he has the proof from the lips of a friend that heard Hopkins make the statement. When it comes to proof the best would hardly convince Hopkins that the statement was made as quoted. To admit it would create trouble in New Deal ranks.

There is one New Deal proposal that we would like to have tried out and that is the Wallace two price system. Imagine a farmer that sells out for 20 cents a bushel having to pay 10 cents a bushel at the grocery for rolled oats and find a reliever standing beside him with a New Deal card and getting the same kind of oats for seven cents. The great middle class would pay the full price while the New Deal voters that would get cards in exchange for their votes for reduced rates on groceries, meats, clothing and fuel. The demand for fire arms would certainly increase if the crazy Wallace plan was ever adopted in this country.

It is hinted that Communists in Cleveland that sail under the New Deal will ask the new legislature for state wage-hour legislation to apply to all business and labor in the state. Such legislation will greatly increase the cost of manufacturing goods in Ohio and place retail stores of all kinds where they would be forced to increase all prices to the general public. Mr. John Q. Citizen would be forced to pay the bill. Organized labor leaders will back such a bill but it won't get any place. The new legislature is Republican and will represent that class of citizens, top and middle, that have not had representation in Columbus or Washington the past six years. The new legislature in Ohio will not take orders from Roosevelt, Lewis, or any of their ilk. Suggestions from all will be received and considered with a poor chance of New Deal stuff getting much consideration.

A former Cleveland state office holder sends out cards seeking signatures promising no future votes for any office Martin L. Davey might seek. The charge is made that Martin L. Davey is responsible for the defeat of the Democratic ticket in Ohio. Davey might have helped, but the Bricker majority would not be as great had Charles Sawyer taken a stand against the CIO the Republican candidate did. Maybe Davey was responsible for the election of the other 11 Republican governors in the country that same day.

The highway department will suffer no more change than the old-age pension boards when Bricker starts his house-cleaning. The manner in which old-age pensioners have been buffeted about calls for a different control, and the Davey administration has not been guilty of half what has been laid at the door of the New Deal in Washington. Of the 83 old-age pensioners in Cedarville we checked 59 as Democrats and 24 as Republicans. There is but one conclusion from the political standpoint. Either Republicans are better off and do not need the pensions or Democrats had a field day when it came time approving applications. Who is there that dares state that the pension board in Greene county will not get an airing soon after John Bricker takes his seat?

Section Four (4). That for the purpose of providing the necessary funds to pay the interest on the foregoing issue of bonds, promptly when and as the same falls due, and also to provide a fund sufficient to discharge the said bonds at maturity, the Council of the Village of Cedarville, Ohio, hereby levies on all the taxable property of said Village of Cedarville, Ohio, in addition to all other taxes, a direct tax annually during the period said bonds are to be paid, provided, however, that the total amount of said tax shall not exceed one-tenth of one percent (1/10%) of the assessed value of said property.

OLD AGE PENSIONS WILL

SOON BE PAID

Through the of our Columbus friends we learn at noon Thursday that the New Deal has given in and will remit money due Ohio for old age pensions. Washington gave the public the impression that something was wrong with the Davey setup in this state when the money was withheld to injure the Davey influence in Democratic politics.

The Democratic wrangle only harmed old age pensioners which should be proof that the aged were to be frightened in supporting Charles Sawyer for governor.

"WE MUST TEACH"

Above all things, teach a child what
life is like. Life is more than breath-
ing, walking, sleeping, and eating; it
is a battle. It is a battle between good
and evil from the cradle to the grave.
Many things exert such great in-
fluence upon us that it is difficult to
instruct a child as to what draws
us up to the divine; or what draws
us down to the brute. We all stand
midway between the divine and the
brute. It behooves us to teach a child
how to cultivate the good side of
nature. Every child must understand
that he lives two lives; one life with-
out, and one life within. To lead an
exceedingly great life is to lead an
inside life that is pure in the sight of
God, and an outside life that is pure
in the sight of man.

There are five means of learning.
These are: conversation, memory, re-
flection, reading, and observation. The
child must be taught the value of
memory. One of the most wonderful
attributes of man is memory. Our
memory is a mystery to us. A child's
mind seeks knowledge, and normally it
always will seek knowledge.

Every child expects and deserves to
be taught those things that will en-
able him to lead a useful life, and the
greatest of these things is moral love.

Lesson for December 4

THE SIN OF LYING

LESSON TEXT—Exodus 20:16; John 8:42.
GOLDEN TEXT—Behold, thou desirest
truth in the inward parts.—Psalm 51:8.

Lesson subjects and Scripture texts se-
lected and copyrighted by International
Council of Religious Education; used by

"God is truth. The word truth
describes the very nature of God. Lying,
therefore, reveals a character
opposite from God. Satan is a
liar. He was a liar from the begin-
ning and is spiritually the father of
all liars. A lie does not necessarily
have to be an untruth. A statement
of a truth may be a lie if its purpose
is to deceive. A half truth may be
the worst kind of a lie. Satan's
lies... are usually mixed with
truth." Consider "modernism,"
which has enough truth in it to
make it accepted by thousands of
people, but sufficient error to de-
ceive it of any power to save souls."
(L. D. Higley).

I. Forbidden to Lie (Exod. 20:16).
This commandment specifically
forbids perjury, which is one of the
worst forms of lying, because it
may result in the forfeiture of the
very life of a fellow being. It is
obvious, however, that it includes
all forms of lying, whether in busi-
ness, in social contacts, in the home,
or in the church. We might do well
to consider what the Bible has to say
about whisperers, talebearers, back-
biters, and others (see Lev. 19:16;
II Cor. 12:20). A man's reputation
may be as easily ruined by a whis-
pered lie over the back fence or the
luncheon table as by formal perjury
in the courtroom. "Thou shalt not
bear false witness" at any time,
anywhere, or in any way.

II. Fountain of Lies (Matt. 15:19, 20).
Our constant concern for the body
that it may be healthy, clean, and
well groomed is commendable up
to the point where it becomes an
attempt to "glorify" the flesh. But
after all, the body is not the most
important thing. The heart is what
makes a man (read Matt. 15:7-11).
But what comes out of man's un-
regenerate heart? What a horri-
ble catalogue we read in verse 19!
It is not what a man eats or what
he wears that makes him, but what
is in his heart. How foolish then to
hope to redeem humanity by im-
proving housing, having better
schools and bigger playgrounds. All
these are desirable, but the one
thing needful is that man's heart be
washed in the blood of the Lord
Jesus Christ, that he be born again.

III. Father of Lies (John 8:42-47).
Liars had better consider their
"family tree" and see how they like
their spiritual father. He is lustful,
murderous, and there is no truth
in him (v. 44). If you belong to
that family would you not like to
change families and be born into
God's family.
As we have already suggested,
the prize lie of Satan is modern
religious liberalism. We quote again
from Mr. Higley: "The first lie
was told by Satan and it brought
about the fall of the human race.
The last lie told by Satan is being
told even now. It is the lie of
modernism, that makes the Church
impotent even to save its own peo-
ple." Let us have no part in putting
forward this falsehood.

Note that in verses 45-47 Jesus
challenges His enemies to convict
Him of sin or of falsehood. No one
has ever been able to meet that
challenge. Even those who deny
His Godhood and Saviourhood
speak swelling words of commenda-
tion of His pure life and exalted
moral teaching. If then He told the
truth about other things, surely He
spoke the truth about Himself. The
claims He made for Himself as the
Son of God and the Saviour of the
world are plain and unmistakable.
If we deny them we either make
Jesus a liar, or we lie ourselves,
and it is obvious that the latter is
the case.

IV. Forsaking of Lies (Eph. 4:25).
"Wherefore" refers us back to the
preceding verses where we are told
how, as Christians, we have put off
the life of the "old man" (v. 22)
and put on the "new man"; there-
fore we are to live in true holiness.
But evidently the Ephesian Chris-
tians still fell into their old heathen
habits of lying. Would that the
tendency had died out with the early
Church, but as a matter of fact, it
seems to have become aggravated
as the years have come and gone.

Being in Christ—members of His
body and thus united to one another
in Him—should make us scrupulously
truthful toward all men. Let us
—which means you and me—scruti-
nize every relationship of life and be
sure that we have not by word,
act, or inference told lies. Think
carefully of your family life, your
church life, your community life.
Deal with such practical things as
grocery bills, taxes, tendencies to
gossip. We preachers need to con-
sider our sermons. Are they true to
God's Word? Are they honestly pre-
pared? Do we "stretch" our illus-
trations to make them effective?
Surely all of us who bear the name
of Christ must put away every form
of falsehood.

Church Appeal Closes

State Liquor Store

A state liquor store in the German-

closed recently by the Liquor Control
Board, because of the many com-
plaints from church members and resi-
dents of the neighborhood. The
liquor store was near to the Immacu-
late Conception Church and also the
East Germantown Recreation Center.

A million stops every day

Any dairyman who has ever had a
milk route knows that one of the most
important jobs in the dairy business
is the routeman's job.

Talking milk, delivering milk, picking up the empties,
talking milk—weekdays, Sundays, holidays—that's how
milk is sold, bottle by bottle, doorstep to doorstep.

Borden routemen make more than a million stops every
day. Each stop is a sales opportunity for extra milk and
other milk products.

Borden, realizing this, trains routemen to be salesmen of
milk and milk products, backs their daily selling with re-
search and merchandising, and is constantly seeking for newer
and better ways to bring more milk into use in homes.
